

Recycling  
£1.4m | Invoice Finance Plus

Reward provided £1.4m as part of a £4m acquisition for a client who was purchasing a business in the recycling sector – security was a mixture of debtors and plant and machinery

The business didn't want to be tied into a long term agreement and the complicated and sometimes hidden fee structures of invoice finance didn't suit the client – so Reward's flexible approach was perfect

The Reward deal is wrapped up in one simple interest rate, which is charged and calculated daily – it's clear and transparent

Construction  
£550k | Business Finance

Construction client based in Redditch won a lucrative contract with a well-known source

They faced issues with their existing finance provider when restrictions prevented them from drawing down the required funds

Reward quickly stepped in with a Business Finance offering, taking personal assets as security, which enabled the client to commence work on the new contract

Deal referred by a well-known introducer

Energy  
£900k | Business Finance

Energy business required funds to accommodate an urgent payment

Reward was approached and stepped in providing a Business Finance facility within a week, after their existing lender had let them down – security was a mix of business and personal assets and involved an overseas business where foreign lawyers were required

Broker and client happy with Reward's speed of delivery, which should see repeat business in due course
