

Vocational Training
£2m | Business Finance

A successful North West entrepreneur was presented with the opportunity to buy out his co-director

The transaction needed to be completed quickly and Reward met the timescales by providing a £2m business loan - utilising a property portfolio as security and enabling the transaction to be completed within a three week timeframe

Client was referred to Reward by his corporate adviser

Landscape Construction
£250k | Business Finance

Time critical deal with a drop dead completion date seven days after the lead was introduced

A buy to let property was taken to support the deal and enable the business to continue trading through a cashflow gap created by the delay of another lender not refinancing the property quickly enough

Reward's overdraft style Business Finance product was the solution, as the client only needs the funds for a few months – so Reward's minimum two month term and no early settlement fee is the perfect product fit

Engineering
£540k | Business Finance

Engineering client requested a Business Finance facility to plug a working capital cap within a short timeframe

The client will use the funding line as an overdraft and drawdown the facility as and when needed, with the flexibility to repay the balance when his credits are received

Reward stepped in within a quick timeframe to support this business in its growth period

Introduced by a well-known broker
