

Aten Global
£350k

Aten Global specialises in the design, installation and implementation of innovative solar renewable power solutions

To maintain its impressive growth across the world we were able to provide them with a capital injection, enabling them to finalise existing contracts and develop new tender opportunities in the UK, Germany, Italy, Netherlands, Ukraine and Saudi Arabia

Vocational Training
£2m

MBO opportunity
Property portfolio used to support

Designer
£310k

Bank reducing overdraft and delays on major contracts – Mix of corporate & personal assets

Engineering
£540k

Working capital need, overdraft for total flexibility

Distributor
£1.4m

Worked alongside a PE house
Deal completed in six working days

Landscape Construction
£250k

Time critical – Seven days to deliver
Short term requirement for gap funding

Energy
£900k

Stepped in to urgently assist – Complex with overseas business and lawyers involved

Care at Home Group

Our 100th North West customer, Care at Home Group, recruited 80 carers to cater for the increased number of patients being discharged from hospitals

Their usual three days' notice about a new patient being discharged dropped to just three hours following the COVID-19 outbreak
Our short-term Business Finance working capital injection enabled them to recruit and train the new carers within such a rapid timescale

Frontgrid
£100k

Frontgrid, specialising in adventure leisure and virtual reality attractions, designed and produced the world's first virtual reality paragliding experience

Our Business Finance loan enabled them to manufacture a ParadrópVR unit to exhibit at a global attractions show - leading to several orders from companies in Thailand, India, Dubai and Malaysia, which resulted in a rapid acceleration of growth for the company

Speedflex
£940k

Speedflex manufactures innovative gym equipment which does not use weights – Instead resistance is automatically adjusted in response to the user

They needed to act quickly to meet the demand for the machines and while this could have been funded from further internal investment, the process ideally suited utilising a revolving facility
With our Business Finance solution they were able to fulfil the orders and facilitate further expansion
