

Manufacturer & Installer
£200k | Asset Based Solutions

This company manufactures and installs stairways, predominantly for the construction industry - It has developed an excellent reputation with its clients over the years, but the company was having to turn work away due to a lack of working capital

Reward organised an ABS facility which combines an IF facility and loan arrangement - The business repaid a much more expensive loan by using Reward's cash but also has been able to generate more working capital from their ledger

This has resulted in increased turnover, because the company can now confidently take on the bigger and more profitable orders, that previously they were reticent to accept

Food Importer
£215k | Business Finance

A husband-and-wife team have run a successful business importing seafood, which is then processed, packed, and frozen in their own fully accredited premises

Over the last 25 years they have built up a solid business, with an impressive turnover, and healthy profits

The bank advised the business that it did not fit the criteria it wished to support and it needed to look elsewhere for funding

Having been introduced by a well-known broker, we quickly arranged the refinance to replace the overdraft and import facility

Bakery
£170k | Business Finance

An award-winning bakery developed a range of products after discovering their son had multiple food allergies and there was a lack of choice to cater for his needs

They created a range which was not only gluten free but dairy, egg, soya and peanut free too - These are sold in wholefood shops, specialist grocers, restaurant, pubs and hotels

As they grew, they arranged several alternative debt facilities

Reward arranged funding to provide a simple solution that provides additional working capital to facilitate continued growth
