

Music Industry
£250k | Business Finance

A husband-and-wife team have created a successful company selling innovative accessories to the music industry, resulting in impressive revenues and excellent growth projections

They now want to bring two complimentary products to the market, designed by them, which they will sell to educational establishments, as well as direct to consumers through Amazon, in both the UK and US

With product design expenditure met by Kickstarter contributions, Reward's working capital facility will facilitate bringing the new products to market and provide a cashflow buffer for fully entering the US market

Construction
£200k | Business Finance

Starting as a training facility to provide young people, finding it difficult to gain employment, with construction skills, the company extended its services into the building of sustainable homes

Training now focusses on building skills, gained in the company's own manufacturing facility, which not only provides a labour force to support its licenced builders through the construction phase, but also gives trainees the opportunity for full time employment - With ESG high on the agenda and energy costs rising, demand for sustainable homes is growing.

The facility will help to expand off-site building facilities with plans to double in size over the next two years

Retailer
£110k | Business Finance

Having opened a village shop during the pandemic to provide a range of grocery essentials to locals, the store has gone from strength-to-strength

Providing high quality products in-store and online, it is attracting customers from across the UK after only two years, especially for its luxury hampers

Reward has provided the finance to build on the success and develop its premium product range and e-commerce still further
